### Law Snags Youths Who Snatch Beer, Bug Teacher

Sidney Graeme Sunbury, 18, of 2345 Sweetwater Rd., Spring Valley, found himself in jail last week after he and two other teen-agers had a bout with several packs of beer. The youths stole the beer from a parked truck in El Cajon. Later fortified with the fruit of their endeavor, visited Mt. Miguel high school and invited students there to share it with them, after first climbing a chain-link fence. Willis Austin, a history teacher at the school, saw the three youths through his window and gave chase, capturing the 15-year-old one. Two 15-year-old youths from Spring Valley, apparently having no connection with the other youths restrained Teacher Austin and the youngster got away. They also threatened that they were going to "work him over" after school. All were later apprehended by Sheriff's Deputy R. E. Torbett. The two late-comers in the fray proved to be high school expellees. These were turned over to the juvenile division. Except for Sunbury who was in jail, the others were referred to the juvenile probation department.

### Good Eye, Memory Traps Beating, Robbery Suspect

The good memory and clear eye of a Lemon Grove man spelled the downfall of a sailor who is reported to have beaten and robbed his wife earlier this year.

John Lukass, a North Island sailor who lives at 1662 La Corta St., made a citizen's arrest of CPO Robert Trujillo June 8 in Coronado. Trujillo is accused of having beaten and robbed Mrs. Lukass in her La Corta street home January 31. Lukass said that the man's face was indelibly etched in his memory after he called at the Lukass home January 30 in response to an ad for the sale of a diamond ring. He also remembered the small car the suspect was driving. After months of watching he saw a similar car on Orange avenue in Coronado as he was parking his own car. He waited to see who got out. "It was him all right," Lukass said. "I'd never forget his face." He followed him into a bar, identified Trujillo and made the arrest. He called sheriff's deputies and his wife. She, too, identified him. Trujillo was arraigned in El Cajon Municipal Court Friday and Judge Penton Garfield set his bail at \$10,000 on each of two counts of felonious assault

### Hearing To Start Monday

SAN DIEGO (CNS) — Final public hearings on the county's record 1961-62 budget are slated to begin at 9:30 a.m. Monday. Any citizen has the right to be heard on matters in the budget. The budget, after the close of hearings in May, calls for the expenditure of \$84,620,012, up \$6,320,135 from last year's final budget of \$78,299,877. Supervisors have to hold hearings for 10 days, so long as there are persons who wish to be heard. However, all hearings are expected to be concluded next week. A final budget will probably be adopted in late June or early July, depending on the printing that has to be done, and the tax rate will be set in late summer.

**FIRE! FIRE!** — Lemon Grove firemen play their hose on searing flames consuming a duplex at Washington and Broadway streets here. The fire occurred on the morning of Saturday, June 10, and what many of the hundreds of spectators (some of them motorists attracted from afar by smoke) didn't know was that the fire was a practice one set by firemen themselves. ### The DIMMER VIEW by MAX GOODWIN 1 Day A Year For Pop

Dad has had his ups and downs throughout history. He hasn't always been the popular guy who will be honored on Father's Day, come Sunday. Back in the Stone Ages, for example, the "head man" was a tyrant. As he grew older, one of his sons usually disposed of him in a fierce hand-to-hand battle, and then "took over" the family. The first known tribute to fatherhood was made by Elmesu of Babylon. It was written on a clay tablet about 2000 B.C., and implored the gods to grant his father "good health and enduring days." In Biblical times, it was considered a crime, punishable by death, for a son to disagree with his father. Earl Romans called down the curses of the ancestral Numina, or family gods, on children who cut themselves loose from parental authority. Among the ancient Greeks, when a son was old enough to marry, his father selected his wife for him—with no questions asked! The same belief in father's matrimonial wisdom was held in India where children were betrothed in childhood, and sometimes a young man was not permitted to unveil his bride until after the wedding ceremony. But Indian women had their revenge. An odd law decreed that if a father got into debt, his wife could sell him in to slavery to pay off the creditors. And in the African Sudan, father definitely comes out second best. After bearing five children a wife may return to her parents leaving Pop to look after the kiddies. On Palau Island in the South Seas, the ruling matriarch can have any male executed if he even disturbs her contemplation. And near Sumatra, Dad has mother-in-law problems right from the start. He has to go live with his wife's family. And, if this weren't enough, children take their mother's name and only daughters inherit property. In the United States, statistics show that women own an ever-increasing portion of the national wealth. Pop's in danger of becoming the "forgotten" man some sociologists believe. But while he may be shorn of his tyrannical powers, the annual outpouring of affection with gifts and sentimental greeting cards shows that Pop's place in his family's heart is stronger than ever. ### NO FRIENDS ARE BEST FRIENDS

The forthcoming County Grand Jury report on the county's purchase of land for an operations center is promoting what many observers believe will be the most healthful development in county government in many years. It is making Supervisors ponder the wisdom of doing so much business with people who are also their friends and from whom they accept social courtesies. Anyone who has spent any time at Civic Center cannot help but be impressed by the familiar names that keep cropping up in county business and the familiar faces that keep popping in and out of Supervisors' office. Not all Board members have succumbed to this habit of (Continued on Page 3)

### NEARBY RESIDENT ASKS FOR NOISE CONTROL

SAN DIEGO (CNS) — Approval of a special use permit for a park at the northeast corner of the Washington street-Alton drive intersection, Lemon Grove, was approved Friday morning before a crowded session of the County Planning Commission. Spokesmen for what was described as "opposition to the park" spoke before the commission, saying that they were not protesting the establishment of a park, but just wanted to be sure it would not be a neighborhood nuisance. The Friday hearing was held because the opposition had no chance to speak at a May 26 hearing. What was called "a petition of special request," signed by 36 persons and one organization, was read to the commission by Mrs. John Obendorfer, who said she spoke for neighbors in the park area. Mrs. Obendorfer said that members of her group did not oppose the park, but that they "oppose only certain activities that might be placed in the park that could, in time to come, affect the tranquility of the entire neighborhood."

She added that "these items are the indiscriminate use of public address systems and any organized activities that create crowds and spectator or participant noise." **FENCE ASKED** Those is her group, Mrs. Obendorfer said, wanted the special use permit given only on these conditions, and they also asked for the fencing of the park and the appointment of a five-member commission for operation of the park. Alva W. Oliphant, as co-spokesman for persons living near the proposed park, backed up Mrs. Obendorfer's requests. "Clutus 'Biff' Gardner, director of the county's parks and recreation department, said a commission could not be appointed for the Lemon Grove park. "We now have a commission, for all the county's parks," Gardner said, "and it would result in utter chaos if every park had a separate commission. I'm sure you can all see that."

**LOCAL CONTROL** Gardner said that he would be glad to consult with a local committee, but purely on an unofficial basis, and he said he thought that would keep the park development in touch with local views. The Lemon Grove park is not to have any spectator sports, Gardner reported to the commission. He said there would be no "normal use of a public address system," but he asked that the commission not refuse permission for use of any loud-speaker. "We might need it for a dedication ceremony, or some other special ceremony," Gardner said. The agreement finally reached later was that only a portable public address system would be permitted to be used only under the approval of Gardner's department. "After all," Gardner said, "you have got to rely on our common sense and our integrity."

Jean L. Vincenz, director of the county public works department, asked about the request for fencing made by the neighborhood group, and Gardner said he did not think a fence would be necessary. "No fence has yet been designed that can keep out energetic young boys," Gardner said. He added that the boundaries of the park are to be "heavily landscaped" and that there is already a fence separating most of the rear park boundaries from residential property. Robert T. Sjogren, attorney for the local groups that have worked to get the park started, introduced Dr. Dennis McLaughlin, president of the Lemon Grove Coordinating Council. McLaughlin told the commission that 51 area organizations had worked together in support of the park. The park, made of about six acres, is to be part of county land and part of land being donated by the Lemon Grove Swimming Pool Assn.

Palm Junior High School is graduating 177 eighth grade students tonight in the school auditorium at 6, according to an announcement this week by Harold Brogan, principal. This first graduation ceremony for Lemon Grove's newest junior high is highlighted by special awards, recognition of honor students, and the traditional diploma presentation. Kathy Dittamore, daughter of Mr. and Mrs. Vance Dittamore of 7936 Nichols St., will deliver the valedictorian address. Her enviable straight "A" record placed her at the top of an impressive list of honor graduates. Salutatorians addressing the graduates and their parents will be Karen Sjogren, daughter of Mr. and Mrs. Robert Sjogren of 7627 Lansing, and Michael Lybrand, son of Mr. and Mrs. Leroy Lybrand of 1691 Bakersfield.

### Car Valued At \$150,000 On Display Here

A hand-made auto, valued at \$150,000, is being shown this week at La Salle Enterprises, 7285 Broadway, Lemon Grove. The auto, according to Ed LaSalle, is awaiting the delivery of a new set of tires which were ordered expressly for the car.

The auto's owner, Andrew Di Dia, a clothes designer, who is staying in Lemon Grove for a week, until the new tires arrive, said he spent seven years making the car which he calls the Bobby Darin Dream Car. Darin and Di Dia are close friends, he said, and once lived together.

The car is of ultra-modern design, all aluminum except the stainless steel trim. It has a 400 h.p. engine and fold-away headlights. Di Dia said he came to Lemon Grove to buy the tires, which, incidentally, are Goodyear Double Eagle brand, because of his old acquaintance with Bud Stanley, LaSalle's sales manager. They were friends when both lived in Detroit. The tires used on the car are "double." One tire fits into another making it virtually blowout proof. The tires must be narrow enough to fit into the car's fender wells.

### Man, 72, Is Camera Winner

Harold S. McLean, a retired rancher-bookkeeper, who lives at 2351 Loma Dr., Lemon Grove, became winner of the Zomatic Movie Camera given in the Lemon Grove chamber of commerce merchants' division contest.

The contest was open to all local people as a money-raising project of the group. Bill Sutherland, chairman of the event said the group profited by nearly \$300 on the event.

McLean, 72 years old, was notified of his good fortune by Edwin Koester, chamber manager. He said that the camera was the first thing he had ever won. "It is quite a thrill," he said. "We thought at first that it was an advertising stunt but they convinced my wife we had won something. Then she remembered that Mr. Sonka had given us the ticket several weeks ago. Tony Sonka is her brother. He bought a lot of tickets and gave them to his relatives and friends." The winner was announced Tuesday.

### Flies Non-Readers

#### Bird Complains

SAN DIEGO (CNS)—The fly control ordinance that the county enacted last year is not satisfactory, the County Board of Supervisors was told at its Tuesday session. For one thing, flies neither read nor admire Supervisors.

The question of flies, one which always arises before Supervisors at the approach of the summer, came up on Tuesday in connection with a complaint from an area woman. She said that a fly nuisance exists in the El Cajon Valley, and the passage of the fly control ordinance had not changed the situation.

**COMPLAINTS ARRIVING** "I'm getting a lot of complaints about the ordinance," said Board chairman David Bird.

What kind? asked Supervisor Cozens. "For or against?" "People say we're not enforcing the law, and it's not tough enough," Bird answered.

"I'm getting complaints that it's too tough, and they are enforcing, at least in the Vista area."

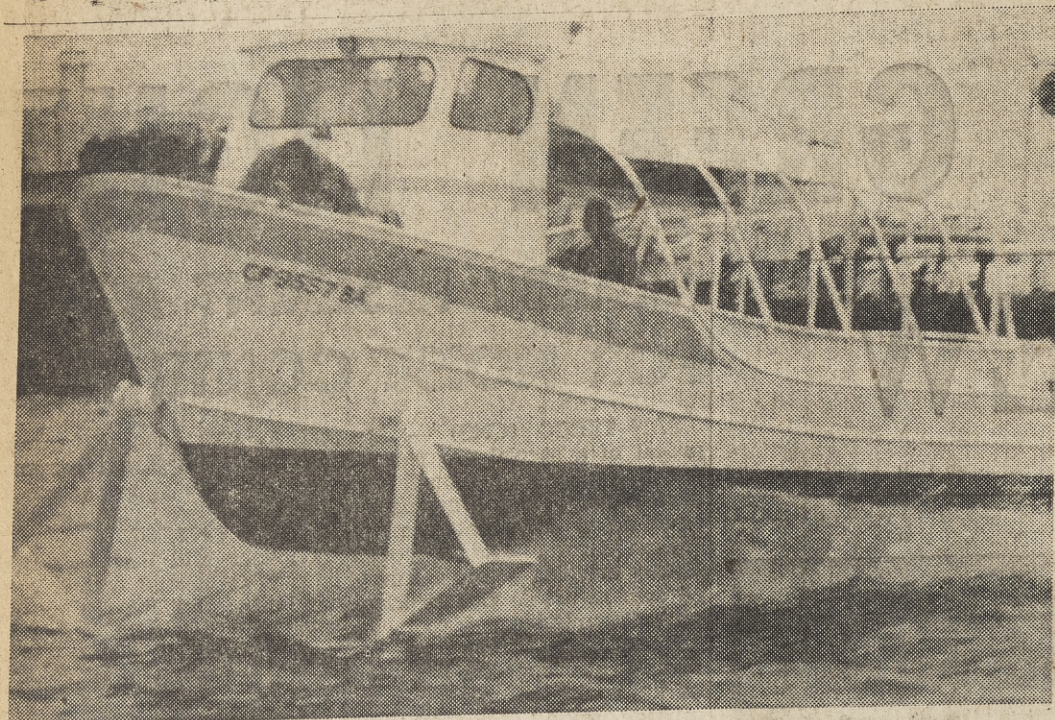

"You just can't have a fly ordinance that pleases everybody," said Supervisor Robert C. Dent.

"The trouble is," Bird declared, "that flies can't read and they don't believe in Supervisors."

**MIGHTY POLITE** — Winners of the annual Courtesy Week contest sponsored by the L.G. Rotary club were awarded trophies Monday at the regular meeting of the club at El Morocco. Left to right are: Rolla Hamilton, chairman of the event; Mrs. Yolanda Jones, who lives at 7437 Tracy, a clerk at Sprouse Reitz, who was judged the most courteous salesperson; Linda Schamens of 1674 Larwood, a student at Palm junior high school, best courtesy poster; Elizabeth Nedza of 1531 Walbollen, a student at St. John of the Cross school, best courtesy essay; Dave Pelletier, 3789 Citrus st., a Helix high school student, most courteous driver, and John Hatz, manager at Sprouse Reitz and employer of Mrs. Jones. Highway Patrol Officer Ed Widholm made the courteous driver award. Pelletier was chosen by a traffic officer when he became the sole motorist to stop for an elderly lady to pull out into the Broadway traffic in a ten minute period. The winner is just 16 years old. ## Hydrofoil Perfected by S.V. Man

A Spring Valley man became the first American developer of a hydrofoil ship when Tod Chaffee's Discoverer skimmed across San Diego Bay Saturday at 40 knots.

The aluminum foils, seen in both pictures, lift the craft three feet out of the water, doing away with hull drag. The craft pictured here was powered by a 275 h.p. motor.

Shown with Chaffee are Sandy Cogan, former Conair president, and Congressman Bob Wilson. The Discoverer, prototype of 25 more hydrofoil ships yet to come, was sold to Hydrocapital. Present plans are to put them in use for passenger carrying on inland waters. Congressman Bob Wilson said Chaffee's hydrofoil had "military possibilities." Army, Navy, and Coast Guard officers observed the tests last week.

## Recreation, School Schedules Set For Lemon Grove Youngsters

Nearly 1,500 pupils in the Lemon Grove School District will report for the six weeks summer session beginning on Monday, June 26. According to S. K. Solleder, assistant superintendent, this represents close to half the total regular enrollment of the district. Three schools will accommodate the students in grades first through seventh for this extension of the school year designed to strengthen and enrich learning at the elementary level.

Golden Avenue School, with an anticipated enrollment of 360, will be staffed by 10 teachers in addition to Clarence Allen, teaching principal. San Altos School predicts 405 students with 11 teachers covering the fields of reading, arithmetic, writing, spelling, physical education, music, and arts and crafts. Douglas Giles and Mrs. Elizabeth Higgins share the administrative responsibilities there. Each school, with similar offerings, begins daily Monday through Friday at 8:30 a.m. and continues to 1:30 a.m. They include grades one through four.

**705 AT JUNIOR HIGH**  
At the Lemon Grove Junior High, 705 students, grades five through seven, have enrolled, and another 50 are on a waiting list. Robert Sutton and Albert Lantz will share the principalship, with 22 teachers staffing the classrooms. Subjects offered include reading, science, math, English, conversational Spanish, music, drama, physical education, and remedial reading.

Monday, June 26, opens the summer recreation program in Lemon Grove. Operated by the school district, the six weeks activity is under the direction of Ben Seiler, physical education instructor at the Lemon

Grove Junior High. He will be assisted by Joseph Papin, Arlen Thorntonsen, and Robert Sargent, all local teachers.

### PROGRAM VARIED

Open to students aged seven or over, to the eighth grade level, the program boasts a diversified list of activities for youth including handball, softball, kickball, tether ball, crafts and model building, and various child games and projects. The schools will be open at scheduled hours Monday through Thursdays.

Each Friday has been set aside for a picnic and swimming event on a sheltered bay beach. Since transportation by school buses limits the number participating each Friday, 100 children will be involved, with selection on a "first come, first served" basis. Except for Friday, July 28, participation in the beach trips is limited to those 10 years or older. The final day of the program, the seven to 10-year-old group will enjoy a picnic-type outing.

### SCHEDULE GIVEN

The following schedule for recreation is announced by the school district. Hours vary to avoid any interference with the regular instructional program being conducted during the same week. Lemon Grove Junior High (including Golden Avenue pupils), 1 to 5 p.m.; Monterey Heights, 9:30 to 1 p.m.; Palm Junior High (including Mount Vernon pupils), 1:30 to 4; Vista La Mesa, 9:30 to 12:30; San Altos, 1 to 4, and San Miguel, 1 to 4.

## The DIMMER VIEW

(Continued)

doing business by friendship, and even those who have don't always have the same friends.

It is not suggested at Civic Center that there is a dishonest Supervisor. Nobody thinks that two cartons of oranges and a trip to Las Vegas "bought" the vote of Supervisor Frank A. Gibson.

But, as Gibson said, C. W. Carlstrom, one of those selling the operations center site to the county and the man responsible for the favors to Gibson, is a friend of many years. And Gibson, because he knows and likes Carlstrom, has been on his side when other things affecting him came before the Board.

The truth to tell, Gibson doesn't realize, or didn't until very lately, that a Supervisor can't afford to have friends. At least, he can't afford to have friends who do business with the county.

At least one Board member realizes that, maybe two do. But it is now hoped that all of them will. And it seems a little stupid that it took so long for the revelation to come.

## They're Upping Auto Taxes Again

Earlier this year there was a proposal for financing county roads by way of a road tax. This tax would be levied against that property adjacent to or benefiting from roads being improved.

As alarmed as we were then, a new proposal, one actually just a step from becoming law, is more alarming still.

It (Senate Bill 1294) will provide funds for improving local roads and streets by increasing the auto registration fee fifty per cent — a tremendous increase in peace-time taxation.

The Senate Bill would permit county government to levy a one per cent fee of the market value of every vehicle. There is presently a two per cent fee.

A moderate priced car now costing \$42 in registration fees would be \$63 under the proposal. Middle priced cars would jump from \$56 to \$85. As the auto ages the registration fee would be less but the ratio of increase would remain constant.

Bob Howell, local tax expert, said cities and counties originally asked the state to levy the increased taxes and turn the proceeds over to them. Legislators found the proposal unpopular and turned it around so that local government will have the unpleasant task of collecting the higher fee.

The funds would be used to develop, improve and maintain local streets and roads, and while this is a commendatory determination, we believe that if the motoring taxpayer were to organize his group only half as well as those who would tax him, local roads could be paid for out of the money he'd save by getting rid of those on the government payroll who spend most of their time figuring out ways to add more taxes to the overburdened.

## WHAT'S DOING

Sid Mansfield, your telephone manager in Lemon Grove

Ever wonder how a criminal can be picked up quickly — hundreds of miles from the scene of his crime? The police Teletype network helps make it possible. Set up and maintained by telephone people, the network links hundreds of law enforcement agencies in this and adjoining states.

When a crime is committed, police quickly send a description of the criminal over the network. This way, law enforcement officers are alerted to be on the lookout for the suspect.

Teletype service for police, as well as newspapers, business and the military, is just one of the many kinds of communications telephone people provide for this fast-moving world.

## Stores Ban Teen-Agers From Entry

Spring Valley's Kresge 5 & 10 store and Sav-On Drugs have prohibited teenagers from entering their stores unless accompanied by their parents. H. G. Whitaker of the 5 & 10 and Byron Thurman of the Sav-On, located in Spring Valley Shopping Center, reported that "teenagers had been stealing them blind."

That this includes girls as well as boys was indicated by the apprehension of two girls who tried to leave the first store on June 8 without paying for items they had picked up.

Deputies were notified and, after police had talked to parents, the girls were released.

AT THE SHERIFF'S OFFICE—Mrs. Marietta Downs, secretary at the sheriff's station in El Cajon takes information from Sgt. R. E. Downs who is in charge of the Lemon Grove sheriff's substation. She is the first secretary the station ever had. Recently when all the men on duty were out hunting for a lost girl, she ran the station by herself. Staff photo.

## Smiling Marietta Keeps Sheriff's Sub-Station In Good Humor

The busiest person in the El Cajon sheriff's substation is smiling Marietta (pronounced Ma-reet-a) G. Downes, who, even when she is called "Murph" by the deputies, manages to keep her good humor. Her duties are many. Besides acting as secretary to Lieut. L. C. Earnest, the officer-in-charge of the sub-station, she acts as desk sergeant and takes care of all the people who come in with complaints, questions, looking for information and or who just plain come in. She writes out all the complaints and daily takes dictation from the deputy sheriffs giving reports on cases. She runs them off on an electric typewriter, and is so expert with it she rarely has to grumble. All the records have to be copied from the reports onto cards and she files them and maintains case files. She has to know the criminal code, too. Her duties also involve the taking of finger prints and filing them, monitoring the radio messages and taking them down in shorthand—later writing them up for the officers—keeping in touch with the probation department, the juvenile officer, the district attorney, the various lawyers from San Diego, and maintaining a happy esprit de corps with the several court and traffic clerks in the station.

**LISTENS TO DEPUTIES**  
She tries to keep the deputies in good humor and listen to their tales of woe or their stories of triumphs. She loves them all and she knows they all love her. There are times when the situation becomes very hectic at the station, but she comes through smiling and humorous. Recently she took care of the office alone while the deputy units and her boss, Lt. Earnest, were out in the mountains hunting for a five-year-old lost child. She answered all telephone calls from the field and also the many from inquiring citizens. Another frantic day was a week ago when an escapee from the interrogation room was being hunted by units throughout the county. Marietta has been in her position for seven years, and is the first secretary the El Cajon sub-station ever had. She worked for three years in the County Welfare Department as a clerk, then passed the Civil Service examination for Sheriff's Clerk. She is a native of Denver, Colo., receiving her education there. She moved to El Cajon from San Diego several years ago, and, in addition to her office duties, keeps a home for her husband, James L. Downes.

## GOD'S MINUTE REV. H. C. BAKKEN "LIFE"

Life is a quality which must be sustained. Food and drink are necessary, if we are to continue enjoying life. We are dependent upon God for the nourishment which we receive every day. If God were to withdraw the sunshine and rain, we would not be able to manufacture substitutes.

A men's chorus at the morning services will be a special feature. A young father who is attending school preparing for missionary service, will be honored in a unique way. All fathers not attending elsewhere are invited to attend, says Rev. Ernest Anderson, pastor.

## New Congregational Church To Boast 90-Foot Tower

SAN DIEGO (CNS)—Lemon Grove is to get what may be the county's most ambitious and artistically developed church project, it was disclosed Friday before the County Planning Commission. The First Congregational Church's application for a special use permit for a church on property on both sides of Glebe road, at Fisher lane, was before the commission, and church spokesmen disclosed plans for the project. Byron Netzley, chairman of the church building committee, explained to the commission plans for development seven acres that the church had bought. He said the land had been subdivided and sites for home sold, but with restrictions that now provide a 90-foot mall leading up to the proposed church site. The commission staff recommended approval of the special use permit, except that it opposed allowing a 90-foot bell tower and also proposed that a condition of approval be that the church grant 20 feet of right-of-way on Fisher land and improve it to county standards.

The commission reversed its staff recommendation and approved the 90-foot tower. The staff had OK'd a 50-foot one. A 20-foot right-of-way grant on Fisher lane with improvements to county road standards were made conditions of commission approval.

## Officers To Be Elected By SV Men's Fellowship

Mrs. Thelma Lewis who will be in charge of this year's Vacation Bible School scheduled for June 19-26 recommends that children take advantage of the week-long school. The primary department reports that it needs rollers from your paper towels or wax paper, regular or large-size cereal boxes, old sheets and empty plastic bottles. Also, cookies and punch ingredients are needed. Anyone wanting and able to help, see or phone Mrs. Lewis HO 6-6747 or Mrs. Mary Quirk, HO 9-6970.

## G. Families Visit Caverns

Mr. and Mrs. George Petyak and Mrs. Damia H. Berry of 7785 and 7715 Palm St., Lemon Grove recently saw one of the wonders of the world—Carlsbad Caverns National Park in southeastern New Mexico.

The visitors went over 750 feet underground on a guided tour to see the incredibly beautiful cavern. They heard tour leaders explain the geological history of the limestone cavern which was millions of years in the making.

Part of their tour was in the Big Room where nature seems to have outdone herself in providing a mighty spectacle of decorated formations, which reach the height of a six story building in a room which covers 14 acres and could accommodate a 36 story building. Like all visitors, they returned to the surface by elevator.

## SV Pony Leaguers Still Playing Close

### Merchants Edge Out Pharmacy

The Spring Valley Pony League teams played some very close games this past week, with a couple of hurlers being credited with shutouts. However the most interesting game of the week was the second game of a double-header, held on Saturday. The game was between the Spring Valley Merchants and the Valley Pharmacy. The game was played 12 innings before the Merchants were able to work a run across, with the help of an error and win the game, 7 to 3. The winning hurler was Hass.

In the last of the sixth inning, the Spring Valley Merchants scored two runs to tie the game. It remained tied until the tenth, when the Valley Pharmacy team scored a run.

**COLLINS HITS SINGLE**  
Collins lead off with a single, took second but was wiped out on a double-play. With two out, Kellison was safe at second on an error in right field and was scored on a single by Westcott. The Merchants then matched that run when Baggett singled, Sabo home from second.

Thus things remained until the 12th inning, when Campbell was hit by a pitched ball and was moved to second on an error to third on a passed ball. Here he remained until two were out and Raines came to bat. Raines lifted a long fly to right field for a routine out, but the ball was dropped and

Campbell scored, ending the game.

Following are the other games of the week:

June 5. Lemon Grove Merchants 12, Cochran Co. 5, with Stevens the winning pitcher.

June 6. Southwest Trophy 5 Spring Valley Merchants 3, and Thomas won on the mound.

June 7. Game between Cochran Co. and the Minor League, with no score or winning pitcher reported.

June 8. Valley Pharmacy 2, Berry's Sporting Goods 0, and pitching the shutout was Kellison.

**COCHRAN WINS**  
June 9. Cochran Co. 9, Summers Sporting Goods 8. Winning pitcher, Goldey.

June 10. In the first game of the double-header it was Berry's Sporting Goods 8, Lemon Grove Merchants 0, with the shutout being won by Harkins. The second game was that reported above.

June 11. In the first game of the double-header, Cochran Co. won over Southwest Trophy by a score of 7 to 5, with Jones being the winner on the mound.

In the second game, the Minor League beat Summers Sporting Goods by a score of 14 to 12. The winning pitcher was not reported.

**STANDINGS**  
Here are the league standings as of Monday, percentage-wise: Summers Sporting Goods, 52 pct. is 714; Southwest Trophy, 65, 666; Spring Valley Merchants, 54, 555; Valley Pharmacy, 44, 500; Berry's Sporting Goods, 44, 500; Lemon Grove Merchants, 47, 364; Cochran Co., 3-7, 300.

**RIBBON CUTTERS** — Spring Valley fire chief Frank Berger and assistant fire chief L. D. Lawton cut the ribbon at the grand opening of the Golden Bowl last weekend. Present for the opening were Helen Duval, woman bowling champ, and Marlene Bates, Miss Wolfe Studio.

## Golden Bowl Has Opening

A lot of fun was had by a lot of bowling enthusiasts and others at the grand opening of the Golden Bowl bowling lanes last Saturday and Sunday.

Cutting the ribbon to officially open the lanes were Spring Valley fire chief Frank Berger and assistant fire chief L. D. Lawton. A dedication prayer was offered by Rev. James King, pastor of Foothills Methodist Church. In a short talk before the prayer, Rev. King said that, in his opinion, bowling in the past few years has been a means of bringing families together.

**FREE HOT DOGS**

Free hot dog sandwiches and cokes were given to the youngsters part of Saturday. They were through the courtesy of Golden Bowl, El Cajon Meat Co., Palomar Foods, Snowflake Baking Co., and the Coca-Cola Bottling Co. of San Diego. Ladies were presented with miniature orchids by Marlene Bates, "Miss Spring Valley of 1961," who was in charge of registrations. In the evening, prizes were given through the courtesy of Golden Bowl, AMF Pinspotters Inc. and George E. Thomas, general contractor who built Golden Bowl.

Main attraction was the appearance of Mrs. Helen Duval, one of the nation's outstanding women bowlers. Saturday morning she gave bowling instructions to the small fry of the area. In the evening she participated in a casual three-line match with three outstanding county men bowlers; Chito Rojas of San Diego, who rolled a total of 626; Mel Culver of Spring Valley, who bowled a total of 542; and Jim Poteet of El Cajon, whose total score was 680. Mrs. Duval rolled 548.

**CHAMPION BOWLS**

Sunday evening Mrs. Duval bowled against four outstanding women bowlers of the county, and the final results in the four-line match were: Helen Duval, 790; Dee Peterson of Spring Valley, 625; Tex Cornwell of San Diego, 624; Nancy Tatum, San Diego, 723; Joan Stahl, Spring Valley, 680.

Helen Duval, who has been bowling for 15 years, as of May of this year, has an average of 748, with a high league season of 701 in which she marked 30 consecutive games. She is the only woman bowler in history to bowl a perfect 300 game at the grand opening of a bowl. This she did at the Solana Beach (Calif.) bowl in 1957.

**COMING TO HIS GRADUATION**—Mt. Miguel high school senior Richard Ellington, almost totally paralyzed in a diving mishap which occurred in June of 1959, is shown at Naval hospital trying on the cap and gown he will be wearing tonight at the commencement exercises in Miguel stadium. Richard will be brought by ambulance to the graduation in order to receive his diploma in person. With him in the picture is senior Susan Axall, who helped fit his cap and gown. Richard continued his studies even though bedridden and the entire staff and student body of Miguel admires him for his courage.

## Student Wins Diploma From Hospital Bed

He may have to attend his commencement on a stretcher or in a wheelchair, but Mount Miguel senior Richard Ellington will be there!

The courageous, optimistic Miguel has spent the last two years of his life either in Naval hospital or at home—flat on his back. But never once, according to his home study teacher, Miss Effie Gates, has his faith or his optimism lagged. With her help, he has completed the required courses for graduation from the local school.

"It will really be an honor," Richard has said many times, "to get a diploma from Mount Miguel."

Miss Gates says of Richard, "He is never really blue and is always smiling." It was this optimism that helped keep him going when he discovered after a diving mishap off Shelter Island on June 19, 1959—the day before his 17th birthday. He has spent the last year and a half battling almost total paralysis.

### DOCS AMAZED

His doctors, as well as others, are continually amazed to see his determination to use the small amount of muscle coordination he does have in his arm. His pride in Mount Miguel and his desire to graduate have kept him working. "If I could only use my hands again,

## Mailbox

Dear Editor:

I am not a newcomer to Spring Valley. My husband and our family have lived in the valley since 1948, when we bought our first home. We have just recently sold our home and are building a larger one to accommodate our larger family. We obviously like Spring Valley or we would have long since moved. We think it is the best place in the county in which to live.

My husband was one of the original members of the volunteer fire department and cheerfully donated hours of work on the first fire station on Troy Street. I was the first secretary to the fire commissioners but had to resign because of ill health. However, for the past three years, I have again served as secretary to the fire commissioners and enjoy the work very much, as it makes me feel a very useful member of the community. Although we now have nineteen paid men and three fire stations, my husband is still a very active member of the volunteers, wearing out shoe leather each year selling firemen's ball tickets, besides getting up in the middle of the night to go fight a fire.

### FOUGHT FOR SEWERS

When sewers were first proposed for Spring Valley, we were right in there working for them. The defeat of this measure was due in a large part to the propaganda efforts of an organization whose purpose was not to inform the people of the true facts but to raise a hue and cry over trivial things and arouse people's emotions.

At present my husband and I are working with the Local Government League of Spring Valley because we feel that local control is the best way to obtain for the valley what it needs. Spring Valley today is not the same as it was thirteen years ago. By the same token our family is not the same. Then we had one child—now we have three. What was adequate for our family then is not adequate now. What was adequate for Spring Valley then is not adequate now either.

I have been on the PTA board of my children's school for the past three years and have just accepted a position on Mount Helix Council for the coming year. By this you may assume that I am interested in children. I am also interested in seeing that they grow up in the right environment. I do not appreciate the fact that my eight and ten year olds cannot go to the one local park without being molested by older boys, who have nothing better to do. I would not only like to see better protection for my young children, I would also like to see some program developed for the older ones so that they would have something better to do than molest young children or hang around drive-ins or speed up and down residential streets where small children are playing.

**NOTHING FOR SOMETHING**  
In these matters the people of Spring Valley are better qualified to find the answers than anyone else, but the only way you can do so is to incorporate and gain the power for action. Opponents to incorporation will tell you that incorporation would be too costly. The facts tell you otherwise. Even if it should cost you a little more, you can't get something for nothing; and right now we are getting a lot of nothing for something!

Please interest yourself in incorporation. Learn the facts. Listen to both sides. Don't let your emotions sway your calm judgment, and above all, don't let Spring Valley be split up into small factions. The opposition knows that united we stand, divided we fall; so please let us unite and stay that way for a better future for our lovely community of Spring Valley.

### Principal Grant's Letter To Miguel Graduating Class

DEAR CLASS OF '61:

Congratulations to the graduating class of 1961. You are the first class to spend all four years under the Mount Miguel staff's tutelage.

Your achievement this year has been truly outstanding. You stood out as a group in both scholarship and extra-

curricular activities. You are unique in that you are strong as a unit. You had few individuals who stood far outside of the group standing—again, your strength was in your unity—your ability to work together and to develop strength because of this. We'll not easily forget you

### Miguel PTA Giving Luncheon In Honor Of The Teachers

Board members of San Miguel PTA will complete the year's activities on Friday, June 16, with a luncheon at the school for the teachers. This to honor teachers for their cooperation and helpfulness in working with parents for the benefit of the children. The luncheon will also be a farewell to two members of the staff—Miss Ramona Peterson, who has been so efficient in the school office, and Mr. Sam Mankins, who will be teaching in the city schools next year. Registration from 150 boys and girls has been accepted for the Back-Yard-Swim program. There are children on the waiting list and an effort will be made to work these children into additional classes.

### NO ELEMENT OF CHANCE

"Calculated risk" seems to be a popular phrase for old-fashioned "gamble." But there's no place for either in preparing or dispensing pharmaceuticals.

Ever notice the letters U.S.P. or N.F. on a medicine label? The letters represent two official books that are recognized by federal law—the United States Pharmacopoeia and the National Formulary.

Together they are the pharmacist's "bible." They give approved standards of the quality, purity, and potency of most medicinal agents.

Whatever your prescription calls for, we are prepared to fill it.
